2. That for assessment of average yield of groundnut under crop cutting experiments the following talukas Satari, Ponda, Tiswadi, Sanguem,

Canacona, Quepem, Salcete and Mormugao are clubbed together as one unit and the remaining three talukas i.e. Bardez, Pernem and Bicholim will be considered as three units in order to achieve the minimum number of required plots for crop cutting experiment under groundnut crop during the seasons.

3. That, the premium rate for Kharif 2007 season would be 1.80% for Paddy, 2.50% for Pulses, 2.50% for Ragi and 3.50% for Groundnut crops of the sum insured or the actuarial rate whichever is less.

4. That under the scheme, insurance coverage is compulsory for all loanee farmers availing Seasonal Agricultural Operations (SAO) loans from Financial Institutions for notified crops in notified areas upto the full loan amount. Additional coverage under the scheme is also available (at the option of farmer),

beyond the loan amount upto the value of 150% of average yield (Average yield of the State based on yield of past 3 years in case of paddy and past 5 years in case of Pulses, Groundnut and Ragi crops). The maximum value of additional coverage is equivalent to State Average Yield multiplied by Minimum Support Price (MSP) announced by the Government of India or the Market Price (MP) where MSPs are not announced in the last season/year.

5. That for loanee farmers, in such cases where amount of crop loan availed works out to be more than either the value of threshold yield or 150% of average yield, normal premium rates (lowest of flat rates or actuarial rates) shall be applicable on the full amount of loan availed, as full amount of loan is to be compulsorily insured. The cropwise levels of indemnity, limits of sum insured and applicable premium rates in the State are given below:—

Notified Crops	Level of Indemnity	Normal Coverage per ha. (upto value of T.Y.)		Additional Coverage per ha. (beyond T.Y. and upto 150% of A.Y.)		Total (per ha.)
		Sum Insured (Rs.)	Normal Premium Rate (in %)	Sum Insured (Rs.)	Actuarial Premium Rate (in %)	Sum Insured (Rs.)
Paddy	80%	18880	1.80	16520	1.80	35400
Ragi	80%	4061	2.50	3553	3.70	7614
Pulses	80%	8409	2.50	7357	11.85	15766
Groundnut	80%	16015	3.50	14013	6.60	30028

6. That coverage is also available for all non-loanee farmers, on optional basis. The sum insured in case of non-loanee farmer is calculated on the basis of value of T. Y. i.e. Threshold Yield multiplied by MSP and it can be extended to the value of 150% of Average Yield. The details are given above.

7. The Financial Institutions shall compulsorily cover all crop loans disbursed, for notified crops, through Kisan Credit Cards (KCC) and banks shall maintain necessary registers and control for smooth and effective coverage of loan.

In case the total amount of loan for particular crop withdrawn through KCC during the season exceed the sub-limit fixed for the crop then the sum insured shall be limited to the sub-limit fixed for such crop in the KCC. The KCC sub-limit for consumption, medium term loans, allied activities and uninsurable crop loans are not eligible for coverage.

The Banks shall ensure the following while giving loans through KCC.

(a) The “Credit Appraisal Form” received from the farmer by the bank for issuance of KCC, contains detailed information with regard to the extent of land holding, crops grown, etc. The banks should have no problem in specifying the credit limits for each crop separately. These limits shall also be furnished separately for Kharif and Rabi seasons as also crop-wise in the KCC.

(b) The farmers while withdrawing money on KCC, shall mention the cropwise quantum of amount availed (on pay slip) in order that the bank shall note down cropwise particulars vis-à-vis credit limit approved. The details given by the farmers at the time of withdrawal shall form the basis for coverage under NAIS.

(c) As the KCC provides for revolving credit, a farmer can withdraw and repay any number of times during the year. This revolving credit may therefore tempt a farmer to go for cyclical withdrawal and repayment during adverse crop season and thus insure his crop for a high sum insured. However, if a farmer is going for higher sum insured (beyond the value of T.Y.) as provided

in the scheme, then he will have to do so at the beginning of the season and the cut-off date will be the one applicable for non-loanee farmers.

(d) It is requested to submit separate Declarations for loanee farmers covered under KCC.

8. For loaning and acceptance of Declarations by AIC for loanee farmers.

If loanee farmer wishes to adopt the higher level of sum insured, he shall be treated as non-loanee farmer and he shall adhere to cut-off date pertaining to non-loanee farmers. He is also required to fill up separate proposal form opting for higher sum insured.

9. That, the FIS shall extend additional loan above the scale of finance towards premium. The FIS shall submit consolidated crop insurance Declarations separately for each crop, each notified area, on monthly basis through the designated nodal offices as per the cut-off dates prescribed.

10. That, the FIS shall also receive individual proposals from non-loanee farmers seeking coverage, scrutinize the proposals, accept premium, consolidate the proposals and route them through their designated nodal offices within their service area as per the cut-off dates prescribed. For the purpose of subsidy to small and marginal farmers under the above-mentioned Insurance Scheme, the definition of the small and marginal farmers shall be the same as accepted by the Government for the Integrated Rural Development Programme. The additional State subsidy on premium is provided as per the approval of State Government vide U. O. No. 4678 dated 8-10-2002.

17. Correct premium rates shall be ascertained from the table given above and premium computation (sum insured x premium rate) shall be done accurately. In respect of small and marginal farmers only net premium need to be remitted. Remission of excess premium shall not entitle for increase in sum insured/liability at a later date.

18. Declaration received after the prescribed cut-off dates shall be summarily rejected and the

responsibility/liability for such proposals rests with the Nodal banks/FIS.

19. "Claims under NAIS are settled solely based on yield data collected as per General Crop Estimation Surveys and not on any other method of yield estimation such as Annewari/Paisevari, Declaration of Drought, Flood affect or affect by any other calamity by any Government Department or Agency."
